

Car Loan Score Calculator — Rules Reference

Annexure-I scorecard + all eligibility rules, as implemented · Strictly for internal circulation only

Approval threshold: Total score must be ≥ 41 out of 100 — AND the application must pass every eligibility rule in Part 2. Failing any eligibility rule rejects the application regardless of score.

Part 1 — Point Scorecard (Annexure-I)

Each category contributes points toward the 0–100 total. These bands are unchanged from the original printed scorecard.

Category	Band	Score
CIC Score (CIBIL)		Max 20 · Min 5
	650–710	5
	711–730	8
	731–750	12
	751–770	15
	771–800	18
	≥ 801	20
	NTC (New to Credit)	12
	<650 (and not NTC) — not on original card	0

The <650 → 0 row is an added rule (not on the original printed scorecard), confirmed with the stakeholder. NTC bypasses the CIBIL eligibility minimum entirely (see Part 2).

Category	Band	Score
Employment Detail		Max 18 · Min 2
	Government Employee	18
	Pensioner	18
	Pvt Sector Salaried	15
	Professional	10
	Others	5
	Agriculturist	5
	Businessman	2

Government Employee/Pensioner and Others/Agriculturist were split from the original 5-category scorecard into 7 categories because Part 2's eligibility minimums (NMI floor, loan-amount multiple, CIBIL floor) differ within each pair — the scorecard *points* themselves are unchanged from the original.

Category	Band	Score
LTV (%)		Max 18 · Min 5
	<30%	18
	30% – <60%	15
	60% – <80%	10
	≥80%	5

Category	Band	Score
Tenure		Max 15 · Min 5
	<60 months	15
	60 – <72 months	12
	72 – 78 months	10
	>78 months	5

Category	Band	Score
Age (years)		Max 5 · Min 1
	<25	1
	25 – <40	4
	≥40	5

Category	Band	Score
EMI/NMI Ratio (%)		Max 12 · Min 4
	≤15%	12
	15% – 30%	8
	>30%	4

Category	Band	Score
CSP (Salary Package) with Bank		Max 7 · Min 0
	Yes	7
	No	0

Category	Band	Score
Loan Amount (Rs. Lakh)		Max 5 · Min 1
	<4L	5
	4L – <7.5L	4
	7.5L – <9.5L	3
	9.5L – <16L	2
	16L – <18L	1
	≥18L	4

≥18L scoring 4 is intentional, exactly as printed on the original Annexure-I scorecard, breaking the otherwise-descending 5/4/3/2/1 pattern. Confirmed with the stakeholder this is not a typo and must not be "corrected."

Part 2 — Eligibility Rules (Hard Gates)

Added on top of the scorecard above. Each is pass/fail — violating *any one* rejects the application outright as "Not Eligible," regardless of the point total.

Age

- Applicant age must be between **21 and 70 years** (inclusive).
- Tenure is further capped so the loan matures (Age + Tenure) by **age 75** — see Tenure below.

Loan-to-Value (LTV)

- Loan Amount cannot exceed **90% of Value of Car** (Ex-showroom price + Registration charge + One year insurance).

Loan Amount

- Minimum: **Rs. 1,00,000**.
- Maximum, as a multiple of Net Monthly Income (NMI):

- Agriculturist: **36× NMI**
- All other employment categories: **48× NMI**

CIBIL (CIC) Score Minimum

- **650** — Government Employee *with* CSP (Salary Package account at the bank).
- **700** — everyone else, including Pensioners with CSP (the CSP exception does not extend to Pensioners) and Government Employees without CSP.
- NTC (New to Credit) applicants bypass this check entirely — there is no numeric score to compare.

Tenure

- Minimum: **36 months**. Maximum: **84 months**.
- Further capped at **(75 – Age) × 12 months**, whichever is lower — i.e. the loan must mature by age 75. For applicants aged 67 or younger this never binds tighter than the flat 84-month cap; for ages 68–70 it does (e.g. age 70 → max 60 months).

Net Monthly Income (NMI) Minimum

- Agriculturist: **Rs. 30,000**.
- All other employment categories: **Rs. 25,000**.

EMI/NMI Ratio Cap

Based on Net Annual Income (NMI × 12). This is a separate, far more generous ceiling than the scorecard's own EMI/NMI scoring band above — it is possible to score the minimum 4 points on EMI/NMI ratio (i.e. ratio >30%) while still being comfortably under this eligibility cap.

Net Annual Income	Applies to	Max EMI/NMI %
Up to Rs. 5,00,000	Everyone	50%
Rs. 5,00,000 – 10,00,000	Everyone	60%
Above Rs. 10,00,000	Default (everyone not qualifying below)	65%
Rs. 10,00,000 – 15,00,000	Salaried* with CIBIL ≥ 700	70%
Above Rs. 15,00,000	Salaried* with CIBIL ≥ 700	75%

*Salaried = Government Employee or Pvt Sector Salaried only. A Salaried applicant earning above Rs. 10L but with CIBIL below 700 (or who is NTC, which can never satisfy "CIBIL ≥ 700") falls back to the 65% default, not the 70%/75% bonus tiers. Non-salaried applicants (Professional, Businessman, Others, Agriculturist, Pensioner) always use the 65% default above Rs. 10L regardless of CIBIL.

Part 3 — How "Ways to Reach the Minimum Score" Works

When an application is below the 41-point threshold and/or fails an eligibility rule, the app searches for fixes using only three adjustable levers — everything else (CIBIL, Employment, Value of Car, Rate of Interest, CSP, Age) is treated as a fixed fact about the applicant.

- **Loan Amount** — only ever suggested lower, never higher. Affects LTV, EMI (and so EMI/NMI), and the Loan-Amount scorecard band simultaneously, since all three share the same Loan Amount variable.
- **Tenure** — can move either direction within its eligible range (36 months to the lower of 84 months or the age-75-maturity cap). Affects EMI (and so EMI/NMI) and its own scorecard band.
- **Net Monthly Income** — only ever suggested higher (e.g. adding a co-applicant's income), never lower. Affects the EMI/NMI ratio and its eligibility minimum only.

The search only proposes combinations that are both fully eligible *and* score ≥ 41 — it never suggests something that fixes the score but leaves an eligibility rule violated, or vice versa.

Generated from the Car Loan Score Calculator source — Annexure-I + eligibility constants. If business rules change, this document should be regenerated from the updated source rather than hand-edited.
